Raphael Kreft, Mathias Müller	6. Classification and regression trees
Fynn Gohlke and Swapnoleena Sen	4. The Lotka-Volterra predator-prey model
Mohamed Sofiene Khiari	2. Principal component analysis (PCA)
Tina Müller	1. Statistical power and sample size calculation
Fabrice Salomon	4. The Lotka-Volterra predator-prey model
Vlasia Kastrinou-Lampou	2. Principal component analysis (PCA)
Tadas Bareikis, Mariona Colomer Rosell	4. The Lotka-Volterra predator-prey model
Rao Rohan Girish	2. Principal component analysis (PCA)
Thierry Grimm	10. Simpson's paradox and mixed models
Timothy Reichmuth	5. Exploratory factor analysis
Tina Müller	1. Statistical power and sample size calculation
Katharina Pêtre	4. The Lotka-Volterra predator-prey model
David Sommer	6. Classification and regression trees
Sarusan Kathirchelvan	3. The Viterbi algorithm
Michaela Heinis	3. The Viterbi algorithm
Mo Awchi	5. Exploratory factor analysis
Oliver Weinmeier	10. Simpson's paradox and mixed models
